Subject: Intimation regarding completion and commissioning of 14 kms MDPE Pipeline at Haryana Location

Respected Sir/ Madam,

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we are pleased to inform that Desco Infratech Limited has successfully completed and commissioned a 14 KM MDPE Pipeline Project in the State of Haryana for facilitating PNG connectivity to residential households.

“DESCO INFRA TECH LIMITED STRENGTHENS INDIA’S CLEAN ENERGY INFRASTRUCTURE WITH MDPE PIPELINE COMMISSIONING PROJECT IN HARYANA FOR DOMESTIC PNG HOUSEHOLD CONVERSIONS TO ENABLING HOUSEHOLDS TO START USING PNG.”

At a time when global energy markets are witnessing volatility due to geopolitical developments affecting fuel supply chains worldwide, the importance of resilient, reliable, and future-ready energy infrastructure has significantly increased. The growing focus on cleaner and sustainable fuel alternatives is accelerating the expansion of City Gas Distribution (“CGD”) networks across India.

The commissioned pipeline infrastructure will facilitate the conversion of approximately 1,000 domestic household connections from LPG usage to PNG gas usage, enabling citizens to access a safer, cleaner, and more efficient fuel solution directly at their homes. The project has been carried out under the guidance of Mr. Amulya Jena (Executive Director) and Mr. Vikas Saraswat (Project Manager).

The project reflects the Company’s continued commitment towards strengthening India’s clean energy infrastructure and supporting environmentally responsible urban development. PNG offers improved operational safety, convenience, uninterrupted fuel supply, and reduced carbon emissions compared to conventional fuel systems.

This achievement further reflects the growing confidence of clients and stakeholders in Desco’s execution capabilities, technical expertise, and commitment towards quality infrastructure development across the CGD Energy sector.

The Company continues to actively expand its footprint in pipeline infrastructure, city gas distribution, commissioning, and energy EPC segments while contributing towards India's long-term clean energy and infrastructure growth journey.

Thanking You!

Yours faithfully,

For DESCO INFRATECH LIMITED

Mr. Malhar Pankaj Desai
Whole-time Director
